

*Asset Tracking
with a logistics
and conditional
capability mapping
to the real world.*

Integron V⁴® Delivers Business Intelligence & Business Results!

NO MATTER THE TECHNOLOGY WE HELP OPTIMIZE ASSET UTILIZATION. Whether its a component of your IT infrastructure, a complex product in inventory or a critical business tool, helping you optimize ROA is our expertise.

IT PRODUCT LIFECYCLE SOLUTIONS. Integron solutions address activity from birth to end of life of an IT Asset. Multi vendor / multi technology project management combined with highly scalable processes for repeatable quality offer unbeatable responsiveness. VMI / Acquisition of business tools, M to M Applications and related accessories begin the implementation. Highly customized devices using a VPN, provisioning for wireless applications and ongoing support replete with the same level of customization delivers true productivity for the end user. During the life cycle intelligence is gathered to calculate cost of ownership for IT initiatives.

SUPPLY CHAIN SOLUTIONS. Customization of highly complex devices saves field engineering time, promotes customer satisfaction, and keeps the problems of DOA away from the point of greatest exposure. Returns are inevitable...but they don't have to be evergreen. Integron quickly repurposes technology to its highest and best use reducing cost of capital issues for stagnant inventory. Paramount is the discovery providing the actionable information collected by leaning the returns process. Variable failure points in the process are uncovered enabling quality improvement programs to maximize ROI.

ASSET MANAGEMENT SAAS SOLUTIONS. The Integron Asset Manager® gives tracking new meaning; reflecting the real work a device performs. Its location, movement, change in configuration, most importantly is the Integron Asset Manager® delivers information to make GO / NO GO decisions, identify asset performance, calculate operating costs and return on assets. From birth to end of life the business intelligence that results from continuous monitoring and measuring valuable assets will contribute to your company's bottom line with Integron's Software as a Service offering.

INTEGRON'S V⁴ TECHNOLOGY ENABLES:

- Visibility into what, where, when and who
- Validation to determine config, version, condition, causal
- Velocity to facilitate cycle time, return to revenue, return to inventory, return to spares
- Value to optimize utilization, ROI, cost of capital, lean for core competencies

While Integron handles your equipment and when it is in service doing work the information gleaned is actionable; actually staggering.

INTEGRON SERVICES PORTFOLIO

IT PRODUCT LIFECYCLE SOLUTIONS

Custom Web Portal for Acquisition to End of Life

PRE-DEPLOYMENT

- Hardware Eval / Suitability to Task
- Acquisition
- Image Development / Testing
- Custom Hardware Integration, Design, & Packaging
- Multi Vendor Project Management

FORWARD DEPLOYMENT

- Customized Domain Config
- Data Migration, Email
- Wireless Provisioning
- Refresh Management

RETURN LOGISTICS

- Overnight Exchange / AUR
- Returns Scheduling & Tracking
- OS / Image Recovery Tools
- Data Migration Service / Tools

PRODUCT SUSTAINABILITY

- Critical Test / Evaluation
- Repair – Warranty & Nonwarranty
- Refurbish / Reman / Redeploy

END OF LIFE

- Lease-end OEM Image Restore
- Data Security / Destruction Validation

SUPPLY CHAIN SOLUTIONS

Technical Logistics & Returns Processing

COMPLEX CONFIGURATION

- Process Design & Optimization
- Automation / Scripting
- Reconfigure, Certify, Repackage
- Deploy to forward inventory

PRODUCT RETURNS LOGISTICS

- Diagnostics, Remediation / Repair, Disposition
- Detailed Record of WIP
- Root Cause Analysis & Business Intelligence

SERVICE PARTS / SPARES

- AUR Spares Logistics
- Parts Diagnostics & Repair .
- Remanufacture
- Reclamation, Re-kit, Recycle
- VMI
- Certification & Regulatory Compliance
- Failure Analysis / Utilization / Optimization

BUSINESS INTELLIGENCE

- Reduce Working Capital
- Recapture Warranty Cost
- Implement Quality Improvement
- Reduce Transportation Spend

INTEGRON ASSET MANAGER® SAAS

Real Time Asset Management

CURRENT STATE ATTRIBUTES

- Location / Custody / Routing
- System / Sub-system / Options
- Software / Firmware BOM / Part#
- Deployment Readiness
- Service / PM Status

COMPREHENSIVE ASSET HISTORY

- Location / Custody / Transfer
- Inspection / Condition
- Service / PM / Repair
- Work In-Process
- Configuration Management
- Failure Causal
- Repair / Parts / BOM / Options
- Technician / Cycle-time

AUTOMATED COMPLEX WORKFLOW

- Manage Complex Process
- Business Rules/Conditional Flow
- Embedded Automation
- Multi-Vendor Process Integration

REPORTING

- Authenticated Portal Access
- Role-based System Permissions
- Dashboard / Custom Reporting

SYSTEMS INTEGRATION

- Web Services
- XML, Direct Custom

Integron's technical know-how and high tech infrastructure supports complex proprietary repair, refurbishment and remanufacture. Combined with IAM V⁴ © the power to reach the real world is compelling. Either way, you gain control you never had before. Let us show you how it can be done. Call 877-426-6660 or email info@integron.com today.
